HOW DID THE NEW BEOG PROGRAMS IMPACT ANY DECISIONS YOU MADE FOR 1973-74 AWARD YEAR PROGRAMS?

Alaska: "Probably expectation of program was one factor in such a small increase in the student scholarship loan program." ... California: "We will reduce our awards when they in combination with BEOG exceed estimated need." ... Connecticut: "No impact" ... Florida: "State awards will be adjusted in cases of over-award." ... SIGNIFICANT CHANGES IN PROGRAM/OPERATIONS
IN OFFICES/AGENCIES ADMINISTERING COMPREHENSIVE PROGRAMS

ALASKA

Tuition Grant Program increased funding from \$812,000 to \$1,000,000.

CALIFORNIA

Initiation of new program, Occupational Training Grants. State Scholarship Program increased number of new awards from 3% to 3.5% of high school graduates, or from approximately 9,500 to 11,200. Maximum award for this program increased from \$2,000 to \$2,200.

CONNECTICUT

Increase of approximately 16.8% in total dollars available for student financial assistance programs (including work-study).

FLORIDA

Student Assistance Grants increased from \$360,000 in 1972-73 to \$3,600,000 in 1973-74.

ILLINOIS

Maximum award raised from \$1,200 to \$1,300. Use of agency auditor to visit colleges and help schools verify accuracy of data submitted. Use of awards for summer or interim terms (less than 10 hours' credit) causes one-half use of regular entitlement. Concurrent registration policies developed. Improved procedures developed to "police" the receipt of other gift aid exceeding our calculated unmet cost. Baccalaureate assistance (grants and loans) for registered nurses authorized but not funded.

INDIANA

New Freedom of Choice Grants Program added, beginning 1973-74. This is a supplemental program providing additional funds to students receiving monetary awards in the State Scholarship and Educational Grant Programs who plan to attend eligible independent institutions of higher education. If there is sufficient financial need, a student can receive full tuition assistance through a combination of two of these three programs. Every recipient of the maximum \$1,400 in the State Scholarship and Educational Grant Programs is automatically considered for additional funds through the Freedom of Choice Program and without an additional application.

IOWA

A 50% increase in appropriation for Iowa Tuition Grant Program.

KANSAS

An increase of 150% in the appropriation for the Tuition Grant Program.

MAINE

Maximum award dropped from \$800 to \$750. Effective family income limit raised from \$10,000 to \$13,000. Eligible students last year were new students; now, two classes; will go to three next year; then all students.

MASSACHUSETTS

Public sector General Scholarship stipends increased from \$250 to \$300 to keep pace with tuition. Private sector medical and dental stipends increased from \$700 to \$800. Initial recipients of the Christian A. Herter Memorial Scholarships enter college in September, 1973. These individuals are selected in their 10th and 11th grade years as an early identification talent search program and are guaranteed substantial scholarships upon enrollment in higher education. Stipends equal 50% of the total budget. Twenty such students enter college this year with stipends ranging from \$900 to \$2,800.

MICHIGAN

Utilization of ACT test for eligibility determination. Maximum stipends in Scholarship and Tuition Grant Programs increased from \$800 to \$1,200 per year.

MISSOURI

First year of program.

NEW YORK

New annual Regents Nursing Scholarships increased from \$600 to \$800.

OHIO

Maximum award from \$1,200 to \$1,320 for students attending private institutions and from \$510 to \$570 for those attending public institutions. Maximum income level raised from \$10,999 to \$13,999.

PENNSYLVANIA
