National Association of State Student Grant and Aid Programs

April 7, 2000

Dear Colleague:

I am pleased to provide you with the 1998-99 Annual Survey Report of the National Association of State Student Grant and Aid Programs (NASSGAP). The Report chronicles the variety of need-based and merit-based aid programs provided by states to undergraduate and graduate students for both full-time and part-time study. It is the most comprehensive report available on state financial aid.

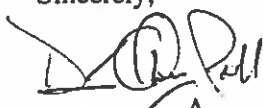

States awarded \$3.683 billion dollars in state aid to over two million students in 1998-99. Overall expenditures for state student aid increased in 1998-99 by 8.7% over 1997-98, with over two million students served. The growth rate for need-based undergraduate student aid was 6.2%. This rate of growth is slightly down from the 6.6% increased in this category reported last year. A portion of this decrease may be attributed to a 50% reduction of funds in the Federal Leveraging Educational Assistance Partnership (LEAP – formerly called the State Student Incentive Grant program).

Obviously, the amounts of financial aid states provide to students is significant, as is the role states play in assisting students to finance postsecondary education. It is important to underscore that most of the programs states offer are dependent on the federal financial aid delivery system, including, but not limited to, the use of the Free Application for Federal Student Aid (FAFSA), and the federal need analysis methodology.

Many state programs were established and remain contingent upon important partnership programs with the federal government, such as LEAP, the Robert C. Byrd Honors Scholarships, and the Gaining Early Awareness and Readiness for Undergraduate Programs (Gear-Up - formerly called the National Early Intervention Scholarship and Partnership Program). NASSGAP believes that state and federal partnerships are essential to maintaining access to higher education for all that can benefit.

I want to thank the New York Higher Education Services Corporation for conducting the annual survey and compiling the results.

Sincerely,

Dennis Obergfell

National Association of State Student Grant and Aid Programs

STATE FUNDING FOR POSTSECONDARY EDUCATION STUDENT GRANTS REMAINS OVER \$3 BILLION

FOR IMMEDIATE RELEASE:
April 7, 2000

FOR MORE INFORMATION, CONTACT:
Dennis Obergfell: (317) 232-2353

The National Association of State Student Grant and Aid Programs (NASSGAP) released its 30th Annual Survey Report, highlighting that more than 2 million students benefited from state assistance in 1998-99. The recipient population received more than \$3.69 billion in state assistance, an increase of 8.8 percent from the previous year. Of the above dollar total, 81 percent was awarded as need-based aid to undergraduate and graduate students compared to 19 percent as non-need-based, merit, and other special bases.

Overall, state spending on need-based and non-need-based grant aid to undergraduate and graduate students increased 47.4 percent over the past five years. The state agencies also reported providing students with over \$500 million in other aid (e.g., loan forgiveness, work-study, scholarships).

The report showed that funding for undergraduate need-based aid increased 13.9 percentage points from 1997-98.

"This report is the most exhaustive account of financial aid programs administered by state agencies. It clearly illustrates that the amount of financial aid states provides to students in the form of need and merit-based aid programs is significant, as is the role states play in assisting students finance postsecondary education" noted Dennis Obergfell NASSGAP President. "That said, many state programs rely on important partnership programs with the federal government such as the Leveraging Education Assistance Partnership Program (LEAP), and the Gaining Early Awareness and Readiness for Undergraduate Programs (GEAR UP) to provide students with the funds and support needed to make higher education affordable and accessible".

LEAP creates the opportunity to significantly increase the amount of need-based grant aid available to students in 1999-2000, and requires that for every dollar over the \$30.0 million base, states will match the federal dollar two to one. Mr. Obergfell noted that no other federal student aid program generates this level of shared support for needy students, and that state and federal partnerships are essential to maintain access to higher education for all who can benefit.

The National Association of State Scholarship Grant and Aid Programs (NASSGAP) is a non-profit member organization representing the 50 states and 6 territories that provide financial aid to postsecondary education students.

Executive Summary

The National Association of State Student Grant and Aid Programs (NASSGAP) is pleased to present its 30th Annual Survey Report of state-administered student financial aid available for the 1998-99 academic year.

This year's report, the fifth compiled and published by the New York State Higher Education Services Corporation (HESC), offers information and statistics such as basic program information and expenditures, longitudinal indicators of student aid funding, and comparisons of student financial aid available in each of the 52 states and territories (Washington, D.C. and Puerto Rico included). The data and tables contained in the Report represent actual 1998-99 academic year data (unless otherwise noted).

Federal funding of the State Student Incentive Grant, now known as the Leveraging Educational Assistance Partnership (LEAP) Program, was considerably decreased for the 1998-99 academic year, following an increase for the 1997-98 academic year. Federal funding for this program went from \$50.0 million in the 1997-98 academic year to \$25.0 million in the 1998-99 academic year, a \$25 million or 50% decrease. The SSIG/LEAP program is a dollar-for-dollar federal/state matching program designed to enable states to offer need-based grant aid to students to attend postsecondary education institutions.

Student Aid Highlights

- ◆ In the 1998-99 academic year, the states awarded \$3.686 billion in need and non-need-based student grant aid to more than two million students, an increase of 8.8% in expenditures over the \$3.389 billion awarded in 1997-98. Of the amount awarded, 81% was need-based grant aid to undergraduate and graduate students, while 19% of it was non-need-based grant aid to undergraduates and graduates. These percentages show a slight change from the 82% and 18% awarded, respectively, in 1997-98.
- ◆ Funding for undergraduate need-based grant aid increased 6.6% in the 1998-99 academic year over 1997-98. This increase is slightly higher than the 6.4% increase from 1996-97 to 1997-98.
- ◆ Of the \$3.0 billion in need-based grant aid available, 99% went to undergraduates; and, of the \$0.7 billion in non-need-based grant aid awarded, 93% was awarded to undergraduates.
- ◆ Five states (California, Illinois, New Jersey, New York, and Pennsylvania) collectively awarded \$1.7 billion in undergraduate need-based grant aid, comprising 58% of the total awarded in this category.
- ◆ Over the past five years, state spending (in current dollars) on need and non-need-based grant aid to undergraduate and graduate/professional students has increased 47.4% (see Table Two). From 1997-98 to 1998-99, 69% of the states (36) reported an increase in these categories, while 25% (13) reported a decrease, and 6% (3) reported no change.
- ◆ Fourteen states reported an increase in need-based grant aid to undergraduates of more than 10% over 1997-98. These states were Arkansas (+ \$2.76 million), California (+ \$47.22 million), Colorado (+ \$10.22 million), Connecticut (+ \$6.75 million), Indiana (+ \$14.46 million), Kansas (+ \$1.36 million), Kentucky (+ \$11.24 million), Massachusetts (+ \$17.78 million), Minnesota (+ \$16.98 million), Missouri (+ \$5.31 million), Nebraska (+ \$0.60 million), New Hampshire (+ \$0.41 million), New Mexico (+ \$1.72 million), and North Carolina (+ \$4.49 million). Nine states reported a decrease in funding of more than 10%. These states were Alaska (- \$.24 million; eliminated all need-based undergraduate funding), Arizona (- \$0.43 million), District of Columbia (- \$0.21 million), Georgia (- \$0.58 million), Hawaii (- \$0.10 million), Louisiana (- \$6.80 million), Mississippi (- \$0.21 million), Puerto Rico (- \$7.01 million), and Wyoming (- \$0.04 million). This compares to twenty-two states reporting 10% or higher increases and two states reporting 10% or lower decreases in the prior year. Two states, Alaska and South Dakota, no longer fund need-based undergraduate programs.

- ◆ Reporting agencies administered over \$500 million in other aid (e.g., loan forgiveness, work-study, scholarships - see Table Three). States also reported slightly more than \$1.0 billion in aid awarded by other State agencies, a 45% decrease (-\$840.7 million) from 1997-98.
- ◆ Thirty-five states identified state grant programs that have a merit component. These merit programs constituted 29% of the total state grant aid available in these states in 1998-99 (See Table Six A).
- ◆ Thirty-three states identified non-grant programs administered by the responding agency (e.g., loan forgiveness, work-study, scholarships, etc...) that have a merit component. These non-grant merit programs constituted 51% of the total non-grant aid administered by the responding agency that was available in these states in 1998-99 (See Table Six B).
- ◆ In total, states awarded \$1.121 billion through programs containing a merit component. This compares to \$3.122 billion awarded through programs with no merit component.

Additional copies of this report may be obtained for \$20.00 per copy by sending a check made payable to the National Association of State Student Grant and Aid Programs (NASSGAP) to the following address: HESC, 99 Washington Avenue, Room 1704, Albany, NY 12255, Attention: NASSGAP. Table Ten

Comments to Better Understand Agency Responses, 1998-99

Connecticut

1. Changed the name (name only) of Scholastic Achievement Grant Program to Capitol Scholarship Program.
2. Implemented Minority Teacher Incentive Grant Program for full-time junior and senior minority students preparing to become teachers in Connecticut public schools.

Kansas

The 1998 Legislature merged the three grant programs for students attending four year institutions into the Kansas Comprehensive Grant. Each sector, state universities, municipal university, & independent colleges/universities, are guaranteed base year funding. An advisory committee was also established in the statute.

Minnesota

The percentage of the State Grant budget the student was expected to cover was decreased from 50% to 47% to acknowledge rising prices. A state need analysis formula was first implemented which was identical to FM but provided an additional \$25,000 asset protection allowance beyond the protection provided in FM.

New Hampshire

Increase in New Hampshire Incentive Program award was due to carryover funds from 1997-98.

New Jersey

Data have been reported for the Outstanding Scholar Recruitment Program (OSRP). The OSRP, a pilot program that began in 1997-98, provides merit monies to high achieving students at participating four-year colleges and universities within the state. The administrative responsibility of OSRP was recently transferred to HESAA. In addition, 1998-99 data are herein provided for other New Jersey programs not previously reported.

Vermont

VSAC is a comprehensive Student Assistance Agency for the state of Vermont. In addition to administering Vermont's statewide grant and scholarship programs. VSAC is the designated guarantor and lender for FFELP Loans in Vermont. VSAC also administers statewide TRIO and Gear Up Programs.

Washington

Two programs - Aid to the Blind and Future Teachers are no longer being awarded.

West Virginia

The 1998-99 year marked the fourth consecutive year that funding improved by more than one million dollars. The state funding has increased by seven million dollars since 1994-95. In addition Lottery proceeds replace general revenue funds as the primary state funding source.

Wisconsin

Awards are denied to those who are delinquent in court ordered child support payments.
